Rafael Granados

Shopify Developer

Ibagué, Colombia · rafagranadosscs@gmail.com · github.com/rafael-granados-outcode

PROFESSIONAL SUMMARY

Shopify developer with 5+ years building and scaling Shopify and Shopify Plus stores, and 7 years of JavaScript and CSS. I specialize in Online Store 2.0 themes (Liquid), custom embedded admin apps (Remix, Polaris, Node.js, Prisma, GraphQL), Shopify Functions and third-party integrations. I have led B2C and B2B storefront work for US and European teams and I work fluently in English.

CORE SKILLS

- **Shopify:** Liquid, Online Store 2.0 (sections, JSON templates, blocks), Shopify Plus, Checkout Extensibility, Shopify Functions, Metafields and Metaobjects, B2B, theme app extensions and app blocks, Section Rendering API
- **Languages and frameworks:** JavaScript (ES6+), TypeScript, HTML5, CSS3, SCSS, Tailwind, Node.js, Express.js, React, Remix, Polaris, PHP
- **APIs and data:** Shopify Admin and Storefront GraphQL, REST, webhooks, third-party integrations, Prisma, MongoDB, MySQL
- **Tools and process:** Git, GitHub Actions (CI/CD), Webpack, Figma, Jira, ClickUp, Agile (Scrum)

PROFESSIONAL EXPERIENCE

Shopify Full Stack Developer, Outcode Software (United States)

02/2024 – Present

- Lead development across multiple Shopify Plus client stores, delivering new theme sections and custom functionality from client requirements.
- Build and customize Online Store 2.0 themes with Liquid, SCSS and ES6+, using metafields and metaobjects so merchants manage content themselves.
- Develop custom Shopify apps with Remix, Node.js, Prisma and the Shopify APIs, including embedded admin apps built with Polaris, theme app extensions and app blocks.
- Implement B2C and B2B stores on Shopify Plus using the B2B APIs, Shopify Functions and Checkout Extensibility.
- Set up CI/CD with GitHub Actions for theme and app deployments.
- Work with app vendors and partner agencies to streamline client onboarding and third-party integrations.

Shopify Full Stack Developer, Convertlab (Germany)

02/2023 – 02/2024 · E-commerce agency for start-ups on Shopify, Recharge and Klaviyo

- Managed multiple stores end to end with Liquid, SCSS and ES6+.
- Built a reusable component library that sped up setup for new client stores.
- Developed a private app with Express.js, GraphQL and MongoDB, and custom checkout logic with Shopify Functions.
- Implemented B2C and B2B stores on Shopify and Shopify Plus.
- Documented workflows that improved development best practices across the agency.

Shopify Full Stack Developer, Gradiweb

12/2020 – 01/2023

- Managed multiple e-commerce stores to client specifications using Liquid and ES6+.
- Developed reusable assets that shortened client store setup time.
- Documented workflows that raised development standards agency-wide.
- Notable stores: bonsoirs.com, pimpant.com.

Full Stack Developer, Movilservicios

03/2020 – 11/2020 · Transactional platform with multiple integrations for small and medium businesses

- Built front end and back end with React, Node.js, Express.js, MySQL, PHP and Symfony.
- Gathered data and connected external systems through SOAP and REST APIs.

Back End Developer, Tecnologias Sinergia

06/2019 – 03/2020 · Hospital software for consultations, medical history, admissions and laboratories

- Developed back-end services with Node.js, Express.js and PHP, and maintained MySQL databases.
- Connected systems through SOAP and REST APIs.

SELECTED PROJECTS

- **FCTR Apparel (Shopify Plus):** team-uniform store where each team runs on its own subdomain, with custom theme logic and metafield-driven content.
- **Gear Express:** Magento-to-Shopify migration and catalog management for a climbing and outdoor gear store (8,000+ SKUs).
- **Backou, Chirp and Warp9:** Shopify storefront development.
- **bonsoirs.com and pimpant.com:** Shopify stores built and maintained at Gradiweb.

EDUCATION AND LANGUAGES

- **Computer Engineer**, Universidad Nacional Abierta y a Distancia (UNAD), Ibagué, Colombia, 2021
- **Languages:** Spanish (native), English (fluent)
